For Immediate Release

P+S TECHNIK Announces Introduction of a Portable 3D Recorder for SI-2K Mini

3D HD-SDI Recording Units in Field Test Phase from May 2010

The brand new portable 3D Recorder from P+S TECHNIK is capable of recording, monitoring and playback of stereoscopic 3D footage. The prototype of the portable 3D Field Recorder features an Intel Quadcore CPU, removable RAID-SSD, a 8" touchscreen monitor as well as HD-SDI output. There's also an analogue video output for local monitoring of the User Interface Screen. Two battery V-Mounts make changing the battery during field operations possible. The system is especially prepared to run the approved SI-3D software.

Lightweight construction and on-set functionality form a perfect unit, the 3D Stereo Equipment from P+S TECHNIK. Precision German engineering professionals can trust.

Just visit us at NAB at booth C5348 in the Central Hall and convince yourself !

About P+S TECHNIK:

P+S TECHNIK, founded in 1990 and headquartered in Ottobrunn, Germany, has earned a reputation as a competent and professional partner for solutions and products of the highest level in the cine world.

Since 2006, P+S TECHNIK develops and manufactures Digital Cinema Cameras and Highspeed Cameras in cooperation with cinematographers and professional hardware and software developers such as Silicon Imaging, WEISSCAM, IRIDAS and CineForm.

Since 2008, P+S TECHNIK is dedicated to advancing realistic 3D stereography for broadcast and cinema together with pioneers in the field, such as Alain Derobe and Philippe Bordelais. By providing 3D Stereo Rigs to suit for anyone and for every occasion P+S TECHNIK has become the worldwide market leader in providing 3D camera systems.

A constantly cultivated close relationship with our key clients and experienced users allow us to tailor our products to the industry's needs.
