

2x Extender for 35mm

The P+S Technik APO extender is based on a Leica lens. The extraordinary quality of the extender is especially shown with the photo lenses (using PL-Mount) which are reframed on a PL-Mount.

Below is a list of possible combinations for the 2- times extender with PL Mount lenses (no guarantee of completeness of list)

HS 35mm (Zeiss)			Zeiss Normal 35mm			Canon		
	Yes	No		Yes	No		Yes	No
