

Evolution 2X LENSES

BASED ON ORIGINAL KOWA
ANAMORPHIC OPTICAL DESIGN

Our Evolution 2X lenses are new and completely re-engineered designs with the same look and bokeh of the rare vintage KOWA Anamorphic lenses. The original KOWA Anamorphic prime lenses were produced until the 1970's and four different primes were available: 40mm, 50mm, 75mm, 100mm.

Our new Evolution 2X lenses are based on the original optical design of the vintage KOWA Anamorphic along with the sturdy P+S TECHNIK complete rehousing for these lenses. That makes them ideal anamorphic lenses for handheld, camera stabilized or drone work.
